

Power amplifier module **MET15A2S** 150 + 150 W, class D.
EN54-16 compliant.

- Outputs for speaker lines: 100 V - 50 V - 33 V (removable terminals with screw)
- **Output power: 150 + 150 W** (power supply 29 Vdc)
- Input sensitivity: 1 Vrms
- Balanced inputs and outputs, removable terminals with screw
- Frequency response: 68 Hz to 20000 Hz
- Muting circuit to eliminate impulsive noise in switching on
- Protection against short circuit and overload
- Ventilation system for forced air cooling
- LED warning lights switch, signal presence and clip saturation with protection intervention
- Metallic case
- Installation in standards 19" rack cabinets with rails [GRPW](#) and desk [PP3A2](#) up to 3 power supply, size 2 units
- up to 5 power supply with rails [GRPW](#) and desk [PP5A3](#), size 3 units

Power supply: 24 Vdc (nominal).

MET15A2S

TUTONDO®

Color: Black.

Overall dimensions: H 88 x W 130 x D 420 mm.

Weight: 5 Kg.
